

# Dissolvable Frac Plug

# X1

Customized Reliability.

**NEXGEN**

# | why us |

The Nexgen X1 Dissolvable Frac Plug is the most **economic** and **reliable** option for plug and perf operations. By reducing materials to the absolute minimum, operators benefit from **quick dissolve** times and minimal wellbore debris at a price that competes with traditional composites.

Each plug is made in the **USA** and assembled to exact customer specifications for **fresh** or **saltwater** completions from **100F to 325F**.

## differentiators

### CUSTOM DISSOLVE RATES

Made to fit every well per customer specifications.  
No one size fits all.

### BALL DROP AND BALL IN PLACE FOR EVERY SIZE

Either configuration available at no added cost or complexity.

### FROM 100F TO 325F AND 8K TO 10K

5 material compositions available for fresh and saltwater completions.

## specs

Casing Size (In.)	Weight (Lb/Ft)	Plug OD (In.)
4.5	11.6-13.5	3.66
4.5	15.1	3.55
5	18-21.4	3.9
5.5	17-23	4.375
6	18-26	4.85
