

Diverter Discs

XVERTER

NEXGEN

| why us |

The Nexgen Xverter Discs are the most economical and reliable perforation diverter on the market. The disk-like shape creates a near well-bore seal with 40% less material than standard spherical balls. Less material, less debris, quicker flow backs, and more money saved.

differentiators

- 40% LESS MATERIAL - MORE ECONOMIC, SAVES MONEY
- VARIABLE DENSITY: 1.00 - 1.85 SPECIFIC GRAVITY (SG)
- INSURE EVERY PERF GETS TREATED IN EVERY STAGE
- CUSTOM DISSOLVE RATES AVAILABLE
- COMPATIBLE WITH ANY FLUID SYSTEM
- WORKS IN VERTICAL AND HORIZONTAL APPLICATIONS
